

Product change notice– Public			
Technical document	Author	Jani Järvinen	Date 6.10.2023
Version 1.00	Nr #002	Approved	Jani Järvinen Date 6.10.2023

The SCOPE of the change		
Date 6.10.2023	Product proFIL1322	Description Coaxial connectors will be changed from UHF-type to N-type. Gender remains female. Change does not affect major dimensions of the product.
	Type of change Connector type change	

Detailed product information				
Product	proFIL1322	<i>Model</i>	Current status	New Status
Serial no range affected from 02010156			Schedule of the change immediate from 09/23	

Detailed description		
RX1 port	previous connector UHF-female -> new connector N-female	
RX2 port	previous connector UHF-female -> new connector N-female	
ANT port	previous connector UHF-female -> new connector N-female	
Motivation of the change	Due to availability and quality issues of UHF-type connectors we have decided to migrate some of our products from UHF-type connectors to N-type connectors. This change typically improves RF-performance and mating reliability.
